SA SHP-TS 250W E40 SLV

0020713

Range features

- Patented new construction featuring the Sylvania Wound Ignition Antenna for the ultimate starting reliability throughout lamp life
- Exclusive frameless construction delivers superior system efficiency and improves lumen maintenance over life
- Exceptional reliability, offering 4 years service with over 95% lumen maintenance
- Super versions with high xenon pressure boost luminous efficacy up to 150 lm/W
- · Offers increased lighting levels and an extended maintenance-free service life in all road and industrial applications

PRODUCT OVERVIEW

Ordering number	0020713
Technology	HID
Light colour	0
Energy class	A++
Average life (Rated) (h)	32000
Lamp shape	tubular
Lamp finish	clear
Dimmable	Yes
Cap/Base	E40
Туре	SHP-TS
EAN code	5410288207131
CRI (Ra)	20
Colour temperature (K)	2050
Luminous flux (Rated) (Im)	34000
Efficacy (Rated) (Im/w)	131.223465843304
Watt (Nominal) (W)	255
Voltage (V)	100

Notes	Sylvania SHP lamps can be dimmed with negligible impact on performance creating the potential for flexible light levels and reduced energy consumption Dimming is supported on electronic square wave ballasts and magnetic systems that can maintain the open circuit voltage. Square wave operation is recommended Dimming causes a reduction of light and some colour change We advise to start the lamps at full power and to hold this for 15 minutes before reducing the power. To avoid extinguishing the power should be adjusted gradually taking a few minutes to reach the final dimming condition Square wave dimming down to 50% of the rated power will have negligible impact on performance, dimming down to 35% of the rated power can affect lumen maintenance and colour appearance Dimming by means of voltage on magnetic systems is not advised as this increases the chance of lamp extinguishing Dimming by phase-cutting on magnetic
	systems is not allowed Instant dimming on magnetic systems by adding an impedance is suggested down to 50% of the rated power but the average life can be reduced.
Long description	systems is not allowed Instant dimming on magnetic systems by adding an impedance is suggested down to 50% of the rated power
Long description Product name	systems is not allowed. Instant dimming on magnetic systems by adding an impedance is suggested down to 50% of the rated power but the average life can be reduced. Patented new construction featuring the Sylvania Wound Ignition Antenna for the ultimate starting reliability throughout lamp life. Exclusive frameless construction delivers superior system efficiency and improves lumen maintenance over life. Exceptional reliability, offering 4 years service with over 95% lumen maintenance. Super versions with high xenon pressure boost luminous efficacy up to 150 lm/W. Offers increased lighting levels and an extended maintenance-
